I. Purpose

This cooperative operating plan is to facilitate assistance in prevention, presuppression and control of wildland fires between the member agencies of the Northwest Wildland Fire Protection Agreement (known as the NW Compact) . This plan does not override or supersede any existing cooperative wildland fire fighting arrangements such as federal/state agreements, Mutual Aid Resource Sharing (MARS), or the Canada/US Reciprocal Forest Fire Fighting Agreement.

Agencies part of the NW Compact will be further referred to as member agencies. NW Compact resources exchange will not be part of the U.S. (Federal) national mobilization process, but needs to be coordinated as soon as possible for strategic purposes. All NW Compact resources used on joint US Federal/State fires will be considered agents of the State.

Local, cross jurisdictional (International, Territorial, Provincial, and State) operating plans may also be developed for local geographic areas that incorporate closest forces concept to facilitate initial attack. The local operating plans will be in accordance with the terms and conditions of the NW Compact Cooperative Operating Plan.

II. Authority

The Northwest Wildland Fire Protection Agreement ratified by US Public Law 105-377, 1998, and signed by the member agencies provides for this cooperative operating plan under Article 3.2.

III. Terminology and Command Systems

To establish a "common" understanding, words and phrases as used herein are defined in a Glossary attached as Appendix A.

The member agencies recognize and accept different on site language and command structures of each agency. Resources may be defined and/or configured differently by each member agency.

IV. General Procedures

A. Requests

1. Requests for assistance will be channeled by the most expeditious means to the appropriate authorized official as listed in Appendix B.
2. Each member agency will be responsible for providing the U.S. and Canadian agencies with the names and phone numbers of the authorized Canadian and U.S. member agency officials and/or duty officers by April 30th of each year.

3. Each member agency's resource order forms are acceptable for resource order requests. The ordering agency assigns the billing number.

B. Personnel

1. Reimbursement for personnel will be on the following basis:
All costs submitted for payment by the sending agency will be reimbursed by the ordering agency, in accordance with the salary schedules and/or union contracts in existence with the sending agency unless resource rates are established prior to resource mobilization.

A sending agency may prefer to set a flat fee for service.

2. When appropriate, the sending agency or the ordering agency may provide and/or request adequate liaison. The costs of the liaison officer will be reimbursed by the ordering agency.
3. When mutually agreed by the ordering and sending agencies, the sending agency may provide a technical specialist or trainee at the sending agencies cost.
4. The ordering agency agrees to accept the sending agency's standards for training, fitness, personal protective equipment and workers compensation. If the ordering agency must meet additional safety equipment/supplies standards than the sending agency standards, it is the responsibility of the ordering agency to supply the required equipment, supplies and associated training.
5. Each agency assigning personnel to a resource order certifies that the personnel assigned meet the requirements of the position ordered.
6. Personnel assigned as part of a resource order will receive an incident briefing by the ordering agency prior to fireline deployment and should be debriefed prior to demobilization. Debriefings and evaluations will be provided to the sending agency.
7. Agencies will comply with customs clearing procedures as applicable. (See Appendix D. Procedures for Crossing International Borders)
8. The sending agency will ensure that their personnel are adequately covered for any hospital and/or medical costs incurred while on assignment.
9. Notwithstanding item number 8, the ordering agency will ensure that immediate medical services be afforded any member of the personnel on assignment regardless of the nature of the requirement or the type of medical aid required.
10. Any accident or serious incident involving personnel on assignment must be immediately reported to the sending agency's authorized official. The sending agency may request to participate in the investigation, or may, at their own expense, and with the assistance of the ordering agency, undertake their own investigation.

11. Commissary expenses for personnel on assignment is the responsibility of the sending agency.
12. Length of assignment and rest and rotation for personnel shall be identified by the Sending Agency at the time of request. Any extension of assignment will be by mutual agreement.

C. Equipment and Supplies

1. Expendable supplies and materials shall be considered purchased on delivery, and full replacement costs will be reimbursed by the ordering agency. Items should be considered expendable if they are not reusable.
2. Non-expendable and accountable equipment and supplies will be credited to the ordering agency upon return to the sending agency. The cost of refurbishing is reimbursable to the sending agency unless the sending agency agrees that the ordering agency will perform the work.
3. In the event that any equipment or supplies are damaged beyond repair or not returned, they will be either replaced by the ordering agency with new equipment or supplies of the same quantity and to the sending agency's standard, or full replacement costs will be reimbursed by the ordering agency. Fiscal reimbursement is the preferred method for replacing lost or damaged equipment when crossing international borders.
4. Providing communications equipment is the responsibility of the ordering agency, or as otherwise specified in local operating plans.

D. Aircraft

1. Costs for aircraft being obtained through this cooperative operating plan are defined by the sending agency. These normally include:
 - a. Hourly flight time
 - b. Hourly/daily availability
 - c. Fuel and oil(if purchased by the sending agency)
2. Air crew wages are included in the hourly flight time and /or hourly/daily availability, unless otherwise specified by the sending agency. Crew meals, accommodations, and ground transportation are reimbursable if not supplied by the ordering agency.
3. Normal, routine maintenance is the responsibility of the aircraft contractor or owner and is not reimbursable.
4. Costs incurred for extra labor or parts transported to facilitate repairs not considered routine are reimbursable. Sending agency contract stipulations will be followed by the ordering agency.

5. Damage to an aircraft caused as a direct result of the ordering agency personnel actions are the ordering agencies responsibility and are reimbursible.
6. Length of assignment and recall conditions will be defined at the time of deployment. Any extension of assignment will be by mutual agreement
7. Special considerations should be mutually agreed to.

E. Recall

1. Forty-eight hours recall notice for personnel will be given from the sending agency wherever possible, and the ordering agency will make every effort to meet the 48 hour notice.
2. Equipment, aircraft and supplies will be returned to the sending agency as expeditiously as possible or as negotiated.

F. Billing and Payment

1. Estimates shall be submitted annually by December 1, invoiced no later than January 31, and final payment shall occur within 60 days after receipt of billing, unless a different arrangement is negotiated.
2. All billings will include the ordering agency's resource order number and request number if applicable, and shall be itemized by incident and by sectional provisions of this guideline.
3. Invoices for goods and services provided by Canada to the US will be paid for in the equivalent Canadian dollars. Invoices for goods and services provided by the US to Canada will be paid for in the equivalent US dollars. It is the intent that the sending agency receive full payment of their bill, regardless of the current exchange rate. The rate shall be the exchange rate at the date that the invoice is issued, and identified on the invoice
4. Member agencies will not normally bill each other for administrative costs (indirect costs), or as agreed to at time of order.
5. Bills shall be submitted to the billing addresses listed in Appendix C.

G. **Review**

1. The Cooperative Operating Plan shall be reviewed annually, and updated as appropriate.
2. *Reviewed and updated April 26, 2006, by the member agencies.*

V. Appendices

A. Glossary

Authorized Official--Immediate authority to approve dispatch of resources. Specific individuals are identified in Appendix B.

Billing Number--Individual agency's charge code that tracks costs for the incident.

Liaison Officer--Official from the ordering/ sending agency responsible for the health, safety, welfare and commissary needs of sending agency personnel while on assignment.

Member Agencies-- Agencies signatory to the Northwest Wildland Fire Protection Agreement

Ordering Agency--Any agency requesting and receiving assistance from another agency.

Sending Agency--Any agency providing resources at the request of another agency.

Technical Specialist-- Personnel with special skills. The specialists may be used anywhere with the organization. Most technical specialists are certified in their field or profession. Position determined by the sending agency at the time of request. Costs may be born by the sending agency.

NORTHWEST COMPACT ORDERING GUIDELINES\ NORTHERN ROCKIES GEOGRAPHIC AREA

The Northwest Compact was created to facilitate assistance in wildland fire presuppression and suppression between the member agencies. Member agencies include the States of Alaska, Washington, Oregon, Idaho and Montana as well as the Canadian Provinces of Alberta, British Columbia and the Yukon and Northwest Territories. The federal wildland fire agencies in the Northern Rockies are not signatory agencies of the Compact, but are committed to assisting the Compact in accomplishing its goals.

The Compact and its Operating Plan do not override or supercede any existing cooperative wildland fire fighting arrangements such as federal/state agreements, or the Canada/US Reciprocal Forest Fire Fighting Agreement. Compact resource exchanges are not part of the national mobilization process but need to be coordinated as soon as possible for strategic planning purposes. All Compact resources used on joint US Federal/State fires will be considered agents of the state that originally ordered them.

State of Montana

All orders for Compact resources to be deployed in Montana will be placed through the Northern Rockies Coordination Center (NRCC). All orders from Compact agencies for State of Montana resources will also be placed through the NRCC. The NRCC will assign a “P” number so that federal agencies can bill the State for any expenses incurred during mobilization/demobilization of Compact resources. **Remember, only State resources may be mobilized through the Compact.** Some resources may be interagency, i.e. they are partially composed of federal personnel and/or equipment (crews, helicopter modules, engine crews, IMTs, etc). Compact orders requesting resources having a federal component must be placed through normal dispatch channels:

Dispatch Center→NRCC→NICC→CIFFC→NICC→NRCC→Dispatch Center

Dispatch of critical interagency resources should not be unnecessarily delayed while orders are being processed through the national mobilization system.

State of Idaho

The same procedures described for the State of Montana apply to Idaho except that all orders will be placed with the Coeur D’Alene Interagency Dispatch Center (CDC).

PROCEDURES FOR CROSSING INTERNATIONAL BORDERS WILDLAND FIRE SUPPRESSION NORTHWEST FIRE COMPACT

1) GENERAL INFORMATION:

As of March 1st, 2003 United States Customs and Immigration functions were consolidated under the Department of Homeland Security. The United States Customs Service was renamed the Bureau of Customs and Border Protection (“CBP”) and absorbed the former Immigration Inspectors and the Border Patrol into its structure.

When travelling across the Canada/U.S. border it is important to remember that you will be dealing with two different nations and their respective customs and immigration agencies, each with different rules and procedures. It is also important to remember that these agency officials have an important job to do and although they will give due consideration to the emergency nature of your trip, you **MUST** comply, and are subject to, all the relevant rules and regulations.

Think of your border crossing in three parts: authority, people and equipment. Each part must be fully documented to comply with the requirements of the country they are entering.

Customs and Border Protection officials have reassured us that they will make every effort to accommodate an expedient crossing provided that we have provided them (in advance if possible) with all the necessary documentation.

PRIORITIES:

- Personnel should carry adequate identification and proof of citizenship. **WARNING:** you are still subject to the laws of each country and personnel with criminal records may be refused entry.
- Contraband of any type is prohibited and can result in penalties or arrest. The importation of firearms is strictly regulated in both the United States and Canada and for the purposes of this compact firearms are prohibited.
- Before leaving your home base, insure that your inventory of equipment and supplies is accurate and that your personnel manifest is fully complete.
- When the dispatcher is providing information to the border officials, they can request priority to the head of the line when crossing the border. Be specific about the crossing being used and the time of arrival.

- When returning, priority crossing will not be considered and all necessary documentation and manifests must be complete. If crews are returning by air, ensure that Customs and Border Protection officials are notified in advance and arrangements have been made to complete inspections.
- Where possible, all documentation should be on official Customs and Border Protection forms and all accompanying letters and authorizations must be on official fire agency letterhead. Electronic manifests provide a better copy than faxed/copied versions; contact the intended crossing point for the best email address to use.

2) **AUTHORITY**

The fact that the deployment is by a state or provincial government at the official request of another state or provincial government should be documented in some manner on official letterhead and supported by copies of the resource order. This assists border officials in verifying the official nature of the deployment.

Note: United States Customs and Border Protection now deals with both personnel and equipment/materials. In Canada, Customs and Immigration has been merged into the Canadian Border Services Agency. Canadian officials specializing in Immigration are at Kingsgate, Osoyoos, Huntington, Pacific Highway/ Douglas, Vancouver Airport and Victoria.

3) **PEOPLE (the “Immigration” element)**

- Everyone crossing the border is subject to the laws of the country they are entering and personnel with criminal records may be refused entry, and those with outstanding warrants will be detained.
- Adequate identification and proof of citizenship should be carried at all times when crossing the border. Proper ID helps determine who you are; it must have a recent photograph, and be issued by a government authority (driver’s license, photo identification or similar.) Proof of citizenship establishes your nationality; passports are best, but birth certificates (including the wallet sized variety issued in Canada), voter registration card, naturalization certificate, and “green card”, will also be acceptable in conjunction with the photo ID.

U.S. CUSTOMS AND BORDER PROTECTION

U.S. immigration law requires that every person entering the United States must be visually inspected; ID and citizenship documents will be verified. Canadian Fire agencies should ensure that crew manifests are on official agency letterhead. These should be faxed in advance to the Port of Entry to speed processing. Crewmembers with criminal convictions generally will not be admitted to the United States; if there is any question this should be clarified in advance by speaking with CBP Officers at the intended port of arrival.

Normally fire crews will be admitted under section 212 (d) 4 and a form I-94 will be issued to each person. Whoever is keeping documents for the strike team should receive (ask for) a validated copy of the crew manifest and keep that as a backup document.

Note: For entry into the U.S., “Jay Treaty” North American Indians are allowed entry without undergoing immigration formalities so long as they can document their status.

Pilots and crews arriving by air must also provide advance manifests. Manifests may be sent electronically or faxed (consult with the Port of Entry official).

Note: It is VERY important to make sure PRIOR TO BOARDING that all crewmembers arriving by air are admissible to the United States.

CANADA BORDER SERVICES AGENCY

Canadian Immigration Regulation 19(1)(j) allows for entry, without employment authorization, of personnel coming to Canada to assist in an emergency situation. The department is flexible with regard to inspection, especially for air transport. Crew manifests should be faxed or electronically provided in advance. Any medical/physical conditions should be identified on the manifest.

Persons with criminal records (such as drunk driving conviction) may be inadmissible in Canada. If the entry is essential to the success of the emergency response, then a discretionary entry or entry under a Ministers Permit may be considered. In either case, payment of a processing fee (C\$200) is required (Visa or Mastercard). Prior notification would help processing.

Note: Persons registered under the “Indian Act” may enter into Canada freely, even if not Canadian citizens. Canada, however, is not a signatory to the Jay Treaty and many U.S. tribes do not receive reciprocity.

In case there is some confusion on emergency procedures quote Customs memo: “D Memorandum, 8-1-1 paragraph 44 and appendix G”

4) EQUIPMENT (the “Customs” element)

U.S. CUSTOMS AND BORDER PROTECTION

Requesting U.S. Fire Agency should notify the designated border crossing Port Director or Supervisory CBP Officer as soon as practical (by phone and fax on agency letterhead) that emergency equipment and material will be arriving from Canada (provide ETA and destination).

Responding Canadian Fire Agency- should fax manifest of equipment (on US Customs Form 7533 if possible) to designated Port Director or Supervisory CBP Officer at the port of intended arrival. Crews or trucks arriving at border must also carry the manifest. Information on the equipment and materials manifest can be of a general nature (number of pumps on engine, amount of foam, numbers of shovels etc).

Airlift of Equipment: CBP officials must be provided with a manifest of equipment and materials and these may need to be inspected at airport of arrival. Not all airports are designated for Customs clearance, and not all airports have full-time staff. Plan ahead and speak to a CBP Officer at the location where you intend to arrive.

SPECIAL CONCERNS FOR AIRCRAFT ARRIVALS

- ✈ Arrivals by aircraft will be treated similar to those at the land border. However, every effort should be made to identify inadmissible crew-members, prior to departure for the United States.
- ✈ Aircraft that will actually land in the United States must clear with and be inspected by CBP at a designated airport.
- ✈ Except in very rare circumstances, all equipment must report for inspection at an Airport of Entry prior to proceeding to a fire scene; those exceptions MUST be coordinated in advance through the Service Port Director and the nearest Border Patrol Sector, and the Air Marine Operations Center (AMOC) in Riverside, California.
- ✈ Aircraft fire operations may include air observer flights or fire retardant drops where the aircraft does not actually land in the United States. It is important that these be properly coordinated with the Air Marine Operations Center (AMOC) and Border Patrol as noted below.
- ✈ AMOC is familiar with and recognizes distinct “squawk” codes to forestry and firefighting aircraft operating near the border. However, when any fire operations are taking place near the border and between ports of entry, AMOC (1-800-553-9072) and the nearest Border Patrol Sector must be contacted. 1255 is the squawk assigned to firefighting aircraft unless some other emergency code has been designated by the FAA for a specific mission.

CANADA BORDER SERVICES AGENCY

Requesting Canadian Fire Agency- should notify the designated border Customs Inspector, by fax and on agency letterhead, that emergency equipment and material will be arriving from the U.S. (provide ETA and destination).

Responding U.S. Fire Agency- a manifest of equipment coming into Canada is required, preferably by fax and prior to arrival at the border crossing. Manifest (Form E29B) can be of a general nature (number of pumps on the engine, amount of foam, shovels etc.). Form E29B must also be handed in when leaving Canada, indicating what is being left behind (what was consumed).

Note: Prior to entering Canada, also stop at the U.S. Port of Entry and complete a U.S. Customs Form 4455 and have it validated by a CBP Officer. This helps establish that your listed equipment is of U.S. origin when you return.

Airlift of equipment: Custom officials must be faxed the necessary manifest. Equipment may be inspected at destination at the prerogative of the Customs Officer.

NOTE: In most cases, any lost, damaged or destroyed equipment should be paid for by the receiving agency. Replacing lost or destroyed equipment causes numerous problems with clearances, taxes and replacement quality.

CANADIAN CUSTOMS CONTACT NUMBERS: 24 HRS.

Program Services (Vancouver, B.C.)	(604) 666-0450
Pacific Highway/Douglas, B.C.	(604) 538-3635

Coutts, Alberta	(403) 344-3772
Beaver Creek, Yukon	(867) 862-7230
Telephone Reporting Centre (CANPASS) (for small aircraft and boats)	1-888-226-7277

*In case there is some confusion on emergency procedures quote Customs memo
"D Memorandum, 8-1-1 paragraph 44 and appendix G"*

UNITED STATES CONTACT NUMBERS:

Contact the Port Director or Supervisory CBP Officer at the Port of Entry you plan to enter through. They can directly facilitate your movement and are the best points of contact. The list that follows covers port locations starting in the west and moving eastward.

Customs and Border Protection has also established a coordinator for Washington, Idaho and Montana to deal with any problems that arise and to assist you with overall policy issues and advance planning:

Bob Gadsby, Supervisory CBP Officer, Great Falls, Montana
406-453-0861 (airport office)
406-453-5688 (fax)
406-788-9810 (cellular)
gadsby@dhs.gov

NOTE: In an emergency, if unavailable at any of these numbers, call CBP's National Communications Center at 1-800-XSECTOR and request that the dispatcher contact SCBPO Gadsby or his designate.

U.S. Customs and Border Protection Notification Procedures when Mobilizing Yukon Territory Air Tankers into Alaska

- 1) Resource Information
 - a. Obtain aircraft tail numbers of all aircraft from Yukon Duty Officer
 - b. Obtain the names and date of birth of all flight crew-members
 - c. Obtain citizenship of all flight crew-members
- 2) Notify U.S. CBP Officer Doug Harmon (907-774-2252) of plan to move Yukon Air Tanker(s) and Birddog into Alaska. Provide the above info in a, b and c. Provide fire location. Notify CBP of estimated arrival times. Inform CBP whether the Tanker will do a single drop and immediately return to the Yukon (“splash and dash”) or if the ship will be reloading in Alaska. If the latter, include the name of the Alaska tanker base that the aircraft will be operating from. If known, provide estimated times of departure from Alaska.
- 3) Upon arrival at the Alaska tanker base, the flight crew leader will need to establish contact with CBP officials at 907-774-2252. State Coordinator (or designee) must ensure that this phone contact occurs.

Release back to YT

- 1) Notify U.S. CBP (907-774-2252) when the aircraft is released back to Canada. CBP requests that Yukon Territory aircraft depart Alaska through Northway. This will enable the flight crew to “clear” Customs outbound. However, damage resulting from the Denali Fault Earthquake in November of 2003 may limit access to Northway. If aircraft are unable to land at Northway on their way out of Alaska, the aircraft will bypass CBP and proceed directly to their home base in the Yukon Territory. In this event, the State Coordinator at AICC will notify CBP by phone and provide written notice within 10 days of the aircrafts’ return to the Yukon Territory. The notice should include the date and time of departure and the number of days spent in Alaska.

Appendix E.

LOCAL GEOGRAPHIC AREA (BORDER) OPERATING PLANS

Local Geographic Area Operating Plans, sometimes known as border agreements, are incorporated by reference.

U.S. Customs Notification Procedures when Mobilizing Yukon Territory Air Tankers

- 1) **Resource Information**
 - a. Obtain aircraft tail numbers of all aircraft from Yukon Duty Officer
